ABOUT ME

Aspiring Data Analyst with expertise in Python, SQL, data visualization, and machine learning fundamentals. Skilled in data cleaning, exploratory data analysis, dashboard creation, and backend development. Passionate about solving real-world problems through analytics, automation, and intelligent systems.

B.E (Hons) – Information Technology

2022 – 2026

SAL College of Engineering, GTU | CPI: 7.53

HSC – Commerce

2022

Gayatri High School, GSEB | First Class

WORK EXPERIENCE & INTERNSHIPS

Python Intern | Code Crew Infotech Pvt. Ltd.

July 2025 | 15 Days

- Gained exposure to Python by solving real-world tasks in logic building, data processing, and basic automation.
- Developed and tested Python scripts using core concepts: functions, loops, file handling, and error handling.
- Assisted in debugging existing code and improving readability under mentor guidance.

Python Developer Intern | Vibrant Web Tech

- Developed and maintained Python-based web applications and backend services for real-world client projects.
- Applied API integration, data handling, and scripting to support web development workflows.

PROJECTS

Project Monitoring System (PMS) v2.0 — Python, Tkinter, SQLite, Flask

GitHub: [Project Monitoring System](#)

- Built a role-based project tracking system with dashboards for Managers, Team Leaders, and Employees.
- Added SHA-256 authentication, audit logs, CSV exports, and optional Flask REST APIs using SQLite.

Multi-Modal AI Search Engine — Python, CLIP, FAISS, Streamlit, PyTorch

GitHub: [Multi-Modal AI Search Engine](#)

- Developed an AI search engine supporting text and image queries using CLIP and FAISS similarity search.
- Built a Streamlit UI with automated embeddings, cosine similarity matching, and top-3 result display.

HACKATHON PROJECTS

Golden Signature – AGPO Factory Optimization Platform — IIT Hyderabad Hackathon | Python, Streamlit, FAISS, Pandas

- Built a factory optimization platform supporting Excel, CSV, and SCADA data analysis workflows.
- Developed deviation detection, eco-efficiency indicators, and continuous learning optimization features.

GitHub: [Golden Signature – AGPO Factory Optimization Platform](#)

Inventory Management System — Indus Odoo Hackathon | Python, Flask, HTML, CSS, JavaScript, SQLite

- Developed a full-stack inventory system with role-based access, stock tracking, and CRUD operations.
- Implemented responsive frontend templates, database utilities, and Vercel deployment support.

GitHub: [Inventory Management System](#)

TECHNICAL SKILLS

Languages: Python, JavaScript, C, HTML, CSS

Libraries & Frameworks: NumPy, Pandas, Matplotlib, Flask, Streamlit, PyTorch, FAISS, CLIP

Tools: VS Code, PyCharm, Jupyter Notebook, Git, GitHub

Soft Skills: Time Management, Collaborative, Problem-Solving
